

My name is Gracie I am 6 years old and I live in Sheffield.

When I grow up I want to be the first lady prime minister from the North.

My mum says if I want to be prime minister I have to go to university

But I want to go home on the train to see my family

Sometimes I go on the bus to the go cinema

When I am prime minister I need to go to London

But just for the day because I need to be home for tea

This is all about me
